

PROFESSIONAL SUMMARY

BCA graduate and MERN Stack Developer with hands-on experience across React.js, Next.js, JavaScript, Node.js, Express, PHP, Laravel, MongoDB, PostgreSQL, and MySQL. Experienced in building responsive websites, CRM systems, business applications, admin panels, REST API integrations, database-driven workflows, and interactive web interfaces.

EDUCATION

Bachelor of Computer Applications (BCA)	2026
Silver Oak University, Ahmedabad CGPA: 8.41/10.00	
HSC (12th)	2023
Gujarat Board	
SSC (10th)	2021
Gujarat Board	

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js, Responsive Web Design, Component-Based UI

Backend: Node.js, Express.js, PHP, Laravel, REST APIs, API Integration, MVC

Databases: MongoDB, MySQL, PostgreSQL, CRUD, Database Management, Eloquent ORM

Mobile: Flutter, Dart, Mobile UI, Navigation, Forms, CRUD, API Concepts

Tools: Git, GitHub, Visual Studio Code, Antigravity IDE

Additional: Tailwind CSS, Web Animation, Smooth Scrolling, AI-Assisted Development

EXPERIENCE

Emperor Smart Solution	Ahmedabad, Gujarat
MERN Stack Developer Intern	2026
- Build responsive web applications with React.js, Next.js, JavaScript, and reusable component-based UI patterns for practical business requirements. - Integrate REST APIs and connect frontend interfaces with backend application logic, authentication workflows, CRUD operations, and database-driven features. - Work with MongoDB, PostgreSQL, and MySQL for application data management while using Git and GitHub for source control and collaborative development. - Create responsive interfaces for desktop, tablet, and mobile devices using structured layouts, interactive components, animations, smooth scrolling, and modern web development practices. - Contribute to CRM and business applications involving lead management, role-based dashboards, administration panels, PHP, Laravel, Flutter, and AI-assisted development workflows.	

PROJECT EXPERIENCE

• Millionaire Digital (MDZ) | Live Project

Next.js, JavaScript, 3D Web Experience, Advanced Web Animation, Responsive Design

- Created an immersive website for a creative media company covering photography, video shoots, events, and digital services.
- Built interactive 3D sections, smooth transitions, animated content blocks, portfolio storytelling, and responsive layouts for multiple screen sizes.

• Emperor Media Solution | Live Project

Next.js, JavaScript, Tailwind CSS, Responsive UI, Admin and Management Workflows

- Created a marketing platform presenting website development, eCommerce, custom software, UI/UX, SEO, and digital-growth services.
- Structured reusable templates and centralized content-management workflows while maintaining responsive layouts, interactive sections, and client-specific website requirements.

• Nexora CRM

React.js, Next.js, Laravel, PHP, PostgreSQL, MySQL, RBAC, Admin Panels

- Contributed to a CRM covering lead capture, customer information, sales workflows, resume operations, marketing stages, and placement activities.
- Configured role-based dashboards, authentication, CRUD operations, administration panels, and structured application workflows for internal teams.

• **Icon Dental Wembley | Live Project**

PHP, Laravel, Dynamic Website, Admin Panel, Responsive Design

- Created a responsive website for a UK dental practice covering treatments, patient information, team details, contact options, and appointment-oriented content.
- Connected dynamic content structures with administration functionality to support controlled website updates and consistent presentation across devices.

• **Spotify Clone | Live Project**

HTML5, CSS3, JavaScript, Responsive UI, Audio Controls

- Built a responsive music-streaming interface with playback controls and interactive progress behavior using core JavaScript event handling.
- Added play, pause, next, previous, and progress-bar interactions to strengthen frontend state management and user-interface fundamentals.

• **Flutter Application Development**

Flutter, Dart, Mobile UI, Navigation, Forms, CRUD, API Concepts

- Built and practiced 10+ Flutter applications covering screens, navigation, forms, reusable UI components, user interactions, local data concepts, and application state patterns.
- Applied mobile development fundamentals across multiple application workflows to strengthen navigation, form handling, CRUD, and UI implementation skills.

• **FYLEX Premium Watches | Live Project**

Responsive Web Design, Product Showcase, Premium UI, Brand Presentation

- Created a premium product website focused on watch presentation, brand identity, responsive layouts, intuitive navigation, and polished visual hierarchy.
- Organized product-focused content into a responsive browsing experience with clear information structure and consistent presentation across screen sizes.

• **Responsive E-Commerce Website**

PHP, JavaScript, HTML5, CSS3, Database-Driven Web Development

- Created an e-commerce application with product presentation, shopping-cart workflows, authentication, checkout-related functionality, and order management.
- Connected dynamic product data with customer-facing interfaces and database-driven workflows to strengthen full-stack web development skills.

• **Personal Developer Portfolio | Live Project**

Next.js, React.js, JavaScript, Responsive UI, Web Animation

- Created a personal developer portfolio showcasing technical skills, selected projects, development experience, and interactive web experiences.
- Applied reusable React components, responsive layouts, animation, visual hierarchy, and structured project presentation across the portfolio.
